

Our Mission

The mission of Friends for Health in Haiti is to improve the health of the people of Haiti in a caring, compassionate manner, as a reflection of our Christian faith.

Patients wait on the front porch of the clinic, which became operational in March 2014.

Vision

Our vision is to develop a holistic, Christian health care ministry in rural Haiti that has the following components: curative medical care provided in our primary care clinic in Gatineau and in a future maternity center and inpatient ward, preventive health education involving volunteer Community Promoters, livelihood assistance to local farmers and spiritual ministry undergirding all of our activities.

Values

Our values stem from our Christian faith – excellence, integrity, compassion and concern for the poor, the vulnerable and the disadvantaged. Our faith is what motivates us to attempt to help meet the staggering health and development needs of the people of Haiti.

Philosophy of Care

We believe in using our resources to have the greatest impact on the greatest number of people and to measure our progress in order to achieve our goals. We believe in empowering individuals and communities to solve their own development problems and to come beside them to help them achieve sustainable results.
